

Tenda a caduta . Vertical Blind

Tenda verticale a cassonetto dal design curato e compatto particolarmente indicata per finestre, balconi e facciate continue. Cassonetto ispezionabile dal design effetto pietra, predisposto per attacco a soffitto. Profilo terminale maggiorato, contenente sistema TENSION KIT.

TENSION KIT sfrutta la forza dei pistoni a gas per mettere in trazione il telo, in qualsiasi posizione intermedia o estesa. Il terminale viene guidato su cavi in acciaio \varnothing 2 mm. installabili su davanzali, pavimenti e ringhiere. Dimensioni massime: larghezza 420 x 300 cm di altezza. Larghezza minima realizzabile 169 cm.

Vertical blind with cassette with a well-finished and compact design particularly suitable for windows, balconies and continuous façades. Inspectable cassette with a stone effect design, arranged for ceiling application. Oversized front bar profile, containing a TENSION KIT system. Our TENSION KIT uses the force of the gas pistons to put in traction the cloth, in any intermediate or extended position. The front bar is driven by side steel cables \varnothing 2 mm. which can be installed on windowsills, floors, handrails. Max dimensions: width cm. 420 x 300 h. Minimum realizable width 169 cm.
